

Child Care Immunization Requirements

The **Florida Certification of Immunization, Form DH 680**, must be used to document the immunizations required for entry and attendance in Florida Schools, Child Care Facilities and Family Day Homes.

Directions:

- Find the child's age/grade level and read across to the right.
- Look to see whether the child had the number of shots shown by the checkmark(s) under each vaccine.
- Note: Each row is meant to be read separately, do not add the columns of checkmarks under each vaccine.

Example: A preschool child ages two and three, is required to have 4 DTaP's, then to enter Kindergarten one (1) more DTaP required for a total of 5 (not 9).

Hep B Hepatitis B	DTaP Diphtheria, Tetanus, Pertussis (whooping cough)	Polio Polio	HIB Haemophilus influenzae type b	MMR Measles, mumps, rubella	Varicella* (Chicken Pox)	Prevnar** Pneumococcal Conjugate
