BEACH ADVISORY RESCINDED

Health Department Rescinds Advisory for Cape Coral Yacht Club Beach

On August 25, 2010, we issued a health advisory for Cape Coral Yacht Club Beach because tests indicated that the beach water quality did not meet the criteria for enterococcus bacteria recommended by the United States Environmental Protection Agency.

Tests completed on September 9, 2010, indicate that the concentration of bacteria has returned to normal.

* We rescind the health advisory for Cape Coral Yacht Club Beach. The beach is considered safe for swimming with respect to bacteria.

* We will continue monitoring beach water quality throughout Lee County.

For more information, please view our internet website at www.doh.state.fl.us, select A-Z to Topics and then Beach Water Quality or contact the Lee County Health Department, Environmental Engineering at (239) 274-2200.
